Katy Perry Guitarist Patrick Matera Takes Eventide around the World

LITTLE FERRY, New Jersey, September 29, 2009 — Currently on an extensive worldwide tour with Katy Perry, lead guitarist Patrick Matera has added an Eventide PitchFactor Harmonizer® stompbox to his meticulously outfitted pedalboard. Last year, unanimously acclaimed breakthrough artist Katy Perry, released the single “I Kissed a Girl” which spent seven weeks at #1 of the Billboard charts in the US before topping the charts in 20 countries around the globe. Now in Europe, the band will be touring through Scandinavia, Japan, Australia, and back to the United States in the fall.

Matera has also played with Gym Class Heroes, Moby, Kenna, and Kim Richey. On adding the Eventide PitchFactor to his arsenal of guitar effects, Matera stated, “I love this thing! I keep finding new sounds in it and places to use it in the set... it really is an amazing pedal.”

About Eventide

Founded in 1971 in New York City, Eventide is a leading developer and manufacturer of digital audio processing products for recording, broadcast, and live performance. Headquartered in Little Ferry, NJ, Eventide invented the H910, the first Harmonizer effects processor in 1975, and introduced the H3000 Ultra-Harmonizer effects processor in 1987.
